Re: Tobacco Sales Age Ordinance

Smoking by young adults under the age of 21 leads to detrimental personal and public health issues with far reaching social and economic implications. This issue is not unique to the City of Berwyn but we have the ability as a home rule community to control access to the legal purchase of tobacco and tobacco-related products. Several major cities in the United States as well as neighboring municipalities have raised the tobacco sales age to 21 years old in recent years.

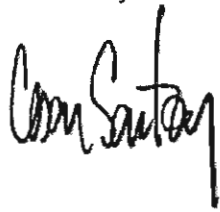

Key facts to consider:

- Tobacco use remains a leading cause of preventable premature death in the United States, killing nearly half a million Americans and costing the nation almost \$200 billion in healthcare expenses and lost productivity each year
- Tobacco use also increases the risks of lung cancer, heart disease, stroke, asthma, emphysema, pre-term delivery, low birth weight, and many other types of cancer
- Cigarettes are the only consumer products that, when used exactly as intended, kill up to one-third of regular users
- Ninety-five percent (95%) of all adult smokers start smoking before they turn twenty-one (21) years of age, the transition from experimental to regular smoking typically occurs around twenty years old and most people who are not smokers by twenty-one years of age do not start smoking later in their lives
- There is strong evidence that people who begin smoking at an early age are more likely to develop a severe addiction to nicotine than those who start at a later age
- Raising the legal sales age for cigarettes and tobacco products will reduce access to both products in stores among young adults, between eighteen (18) and twenty-one (21) years old, and among youth who are younger than eighteen

- Raising the legal sales age for cigarettes and tobacco products will reduce access to cigarettes and tobacco products by youth because youth often acquire such products from older friends: ninety percent (90%) of people purchasing cigarettes for minors are between eighteen (18) and twenty (20) years old
- See attached informational flyer as provided by the Cook County Department of Public Health

It is my recommendation to raise the tobacco sales age to 21 years of age within the City limits of Berwyn. To this end, I am requesting that this matter be referred to the Legal Department for the drafting of a proposed ordinance and to the Committee of the Whole for discussion and comment.

Sincerely

Cesar A. Santoy

Tobacco 21

The initiative to raise the tobacco sales age from 18 to 21

Current tobacco use trends are driving new prevention strategies

- In Illinois, 6,300 teens become new daily smokers each year.¹ In suburban Cook County, 29 percent of high school seniors use tobacco products.²
- While great strides have been made in tobacco prevention, declines in tobacco use rates have slowed and products like cigarillos, hookah, and e-cigarettes are now used at double the rate of cigarettes.²
- Reducing teens' access to tobacco products is a proven means to reduce current use and prevent initiation.

The age of 21 is important for prevention

- 95 percent of smokers start before the age of 21.³
- The majority of underage tobacco users get their tobacco from a peer; however, 90 percent of those suppliers are themselves often under the age of 21.⁴
- Drawing the line at 21 gets legal tobacco purchasers out of high schoolers' social circles.

Tobacco 21 saves lives and improves health

- The Institute of Medicine projects that Tobacco 21 could reduce overall smoking by 12 percent by the time today's teenagers become adults; the biggest declines in tobacco use would be seen among 15-17 year olds (25%) and 18-20 year olds (15%).⁵
- Tobacco 21 would immediately improve community health by reducing inflammation, improving immune function, and reducing premature births and SIDS.

The economic impact of Tobacco 21

- Economists project that nationally, Tobacco 21 could save \$212 billion in medical costs.⁶
- Each year, tobacco use costs Illinois \$5.49 billion in health care costs and \$5.27 billion in lost productivity.¹
- The impact of Tobacco 21 on retail sales would be minimal since the 18-21 year old age group only accounts for 2 percent of overall tobacco sales.⁷

Tobacco 21 enjoys broad support across Illinois and the U.S., even from smokers!

- A 2015 CDC study found that 75 percent of adults support Tobacco 21, including 70 percent of current smokers.⁸ A recent study also found that 68 percent of 18-24 year olds would support Tobacco 21.⁹
- More than 220 cities across 16 states, plus the states of California and Hawaii, have enacted Tobacco 21.¹⁰
- In Illinois, Tobacco 21 has already been adopted by Evanston, Chicago, Oak Park, Highland Park, Naperville, Deerfield and Maywood, and is being considered by dozens more communities.

Re: Lead Poisoning Ad Hoc Committee

Young children are exposed to lead paint in Berwyn through peeling and deteriorating lead-based paint which can be inhaled or ingested. This results in elevated blood lead levels which can result in behavioral and learning issues. The City of Berwyn has been designated as a high risk zip code by the Illinois Department of Public Health. The Cook County Department of Public Health estimates that 800 children in Berwyn have unacceptable blood lead levels.

It is my request to form an Ad Hoc Committee to develop an intergovernmental action plan for City to address this issue. The Committee will meet maximum of (4) times and will present its finding to the City Council for further discussion and implementation. The following community members will be invited to serve on the committee:

- Cesar A. Santoy, City of Berwyn (Committee Chair)
- Deanna Durica, Cook County Department of Public Health
- Beth Pechous, Township Supervisor
- David Avila, Township Assessor
- Regina Mendicino, City of Berwyn
- TBD, Local Practicing Physician

I am respectfully seeking approval from the members of the City Council to form the Lead Poisoning Ad Hoc Committee as outlined herein.

Sincerely

To whom it may concern,

We are asking for permission to block off our alley on July 15th, 2017 from the hours of 1pm-10pm. We are the owners of 3841 Elmwood ave Berwyn, IL 60402 and use this alley to access our garage. All neighbors will still have full access to their garage and residence by blocking this portion of the alley, we have attached a google map picture for your review. We are throwing our baby shower barbeque and with our guests using our garage we are hoping this will be granted for the better safety of our guests.

Please advise.

Thank you very much,

Scott and Jaime Olsowka

Re: Partial Street Closure of 34th Street and Grove Avenue on
Sunday, August 13th from 11:00am to 3:00pm
for Christian Life Center Church Picnic, 3409 Grove Ave., Berwyn

We are seeking the approval of partial street and alley closure on Sunday, August 13th at 11:00am to 3:00pm., during our Church Picnic on our property, which resides on the corner of 34th Street and Grove Avenues. We will be inviting our neighbors as well as our congregation and in anticipation of the amount of people attending, we would like to ensure the safety of all, especially the children.

Therefore, we are requesting that southbound traffic onto Grove Ave from 34th street be closed, as well as northbound Grove Ave traffic be diverted West through the alley and vice versa ensuring our neighbors still have access to their homes and garages. This will be only for a 4 hour period of time.

Please see Google Maps, aerial and street view included for exact position of closures we are requesting. We thank you for your consideration of our request and look forward to hearing of your decision in the near future. If any questions or concerns arise, please do not hesitate to contact Pastor David Tinberg at 708-398-3234 x 33 or you can call me at the church office at 708-398-3234 x5.
