Re: City of Berwyn Recognized for Excellence in Financial Reporting

I am pleased to inform you that, for the 9th straight year, the City of Berwyn has been awarded the Certificate of Achievement by the Government Finance Officers Association (GFOA). The award is the result of the City of Berwyn utilizing best practices and full disclosure in Berwyn's comprehensive annual financial report (CAFR). The 2016 CAFR was reviewed by an independent and impartial panel and was found to meet the high standards of the program. The Certificate of Achievement is the highest form of recognition in government finance.

Please join me in thanking Rasheed Jones, Benjamin Daish, and the entire staff of the Finance Department for their diligent work throughout the year. This recognition would not have been achieved without them.

CITY OF BERWYN ZONING BOARD OF APPEALS TO
THE MAYOR AND CITY COUNCIL**

January 18, 2017

APPLICATION: For a Conditional Use to operate a Banquet Hall use, and for a Variation for a reduction in the required number of parking spaces, at property located in the C-2 General Commercial Zoning District at 6505 – 6511 W. Cermak Road, Berwyn, Illinois.

PETITIONER: Jorge Jimenez

PROPERTY OWNER: Same

PROPERTY: 6505–6511 W. Cermak Road, Berwyn, Illinois (the “Property”)

SUMMARY OF REQUEST AND RECOMMENDATION: The City of Berwyn has received a request from Petitioner Jorge Jimenez for a Conditional Use to operate a Banquet Hall use, and for a Variation for a reduction in the required number of parking spaces, at the Property located in the C-2 General Commercial Zoning District at 6505 – 6511 W. Cermak Road, Berwyn, Illinois. The Petitioner seeks to redevelop the existing funeral home building(s) into a banquet hall and four (4) residential apartments. Modifications to the buildings are interior only; no exterior modifications are planned. The banquet hall/meeting hall use requires a conditional use in order to operate in the C-2 General Commercial Zoning District. The Petitioner also requests a Variation from Section 1258.11 (Off-Street Parking and Loading) and Section 1276.06 (Compliance with Parking Requirements When Changing Use) of the Zoning Code of the City of Berwyn (“Zoning Code”) requiring parking to comply with Code requirements where buildings are converted to a use permitted in the C-2 General Commercial Zoning District. Petitioner proposes to retain the current sixteen (16) spaces provided on-site.

Following a public hearing which was held on January 18, 2017, the Zoning Board of Appeals of the City of Berwyn (“ZBA”) recommended **APPROVAL** of the requested conditional use and variation on a vote of five (5) in favor and one (1) opposed.

BACKGROUND: The Property has an existing building most recently used as a funeral home. Petitioner proposes to redevelop the existing building into a banquet hall facility with four (4) residential apartments on the second floor.

While the second floor apartments require no special approvals, Staff determined that a conditional use was required for the banquet hall/meeting hall use, and that a variation for parking would be required pursuant to the provisions of the Zoning Code. Petitioner

then filed an application requesting approval of the conditional use and parking variation.

PUBLIC HEARING: The public hearing on Petitioner's conditional use and variation request was held on January 18, 2017. At the hearing, Petitioner's architect testified that the original building on the Property was constructed in 1918. It was purchased by the Marik family for use as a funeral home in the 1930's. The Mariks combined the two buildings that had existed on the property, and built an addition that included a second story. Petitioner seeks to retain and preserve the structures on the Property, including restoration of the upstairs area for use as four (4) apartments. The portion of the building below would be used for the proposed banquet hall use.

There is limited parking on-site due to the existing configuration. There are sixteen (16) spaces on-site, with fifteen (15) additional spaces abutting the Property (nine (9) on Cermak Road, and six (6) on Gunderson). Petitioner proposes to provide valet parking during events in order to provide supplemental parking.

Petitioner owns Jelly Jam and the Sky View Restaurant as well.

There is an existing garage on the Cermak Road side of the Property that would be converted to a café/coffee shop. It is approximately 770 square feet and can accommodate 20-25 people. It would operate 10:00 a.m. to midnight. It would be open during banquets and could serve people who were attending events.

The proposed banquet hall facility could accommodate up to 200 people. It would operate mostly on Fridays and Saturdays. Petitioner intends to request a Class C Liquor License. The café will not serve alcohol. The café would employ approximately four (4) people, and the banquet hall would employ approximately four (4) to six (6) people.

Petitioner has no intention of creating a "nightclub" on the Property, and would be willing to sign an affidavit to that effect.

The construction budget is \$400,000. Construction would take four (4) to five (5) months. Petitioner and his architect intend to keep the historical traits of the buildings intact. Wood trusses and other significant features will remain. There will be no changes to the exterior façade of the building. The courtyard will be used by the café.

Two members of the public testified to express concerns about parking. One stated his opinion that 200 people is too big a capacity for the site. The other opponent recalled that there were parking issues when the funeral home was open. Parking is an issue and there are too many cars in the area already. The upper floor of the building was previously used by family when the funeral home was open. The funeral home closed in 2005-06.

There being no further questions or members of the public wishing to speak on the application, the Public Hearing was closed.

Exhibits marked during the course of the Public Hearing included: **Exhibit A**, the Notice of Public Hearing published on December 30, 2016 and **Exhibit B**, Petitioner's application for a conditional use and variation, along with supporting materials.

The Area Investigator appointed in this matter was ZBA Chair Joel Chrastka. Chairman Chrastka discussed his investigation. He noted that the upper floors had been used by the Marik family as their living quarters and offices, and that even after a corporation purchased the Property from the Mariks, the upper floors had continued to be used for offices and as living quarters for mortuary students. He discussed the proposed restoration of the buildings on the Property, and parking issues.

The other members of the ZBA each then in turn expressed their views on the proposed conditional use and variation.

Chairman Chrastka made a motion to recommend to the City Council that it approve the request of Petitioner for a conditional use to operate a banquet hall/meeting hall use on the Property, and for a variation approving a reduction in the number of parking spaces required on the Property to the sixteen (16) existing spaces, subject to the following conditions:

- A. The Petitioner provide valet parking for all events, and provide a proposed plan relative to parking with the City; and
- B. The Petitioner may not operate a "night club" on the Property.

The motion was seconded by Member Walega. The vote on the motion was five (5) in favor and one (1) opposed. Member Bruen voted no based on his concerns regarding parking.

FINDINGS: The ZBA makes the following Findings as to the proposed conditional use:

- (A) **The proposed use and development at the particular location requested is necessary or desirable, provides a service or a facility which is in the interest of public convenience and will contribute to the general welfare of the neighborhood or community.** The Petitioner's proposed use will maintain the existing structures while providing a beneficial and desirable use at this location that will contribute to the general welfare of the neighborhood and community. This standard has been met.
- (B) **The proposed use and development will, under the circumstances of the particular case, not be detrimental to the health, safety, morals or general welfare of persons residing or working in the vicinity, or injurious to property values or improvements in the vicinity.** The proposed use will utilize a space that has been vacant for ten (10) years for a desirable purpose. The existing buildings will be retained and converted. No anticipated detrimental effects are evident. This standard has not been met.

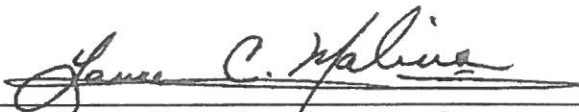

- (C) **The proposed use and development will be in harmony with the general and specific purposes for which the Zoning Code was enacted, and for which the regulations of the district in question were established, and with the general purpose and intent of the Official Comprehensive Plan.** The members of the ZBA felt that the proposed use would provide a complement to the existing and planned uses in the immediate area, and was consistent with the goals and purposes of the Zoning Code.
- (D) **The proposed use and development will be constructed, arranged and operated so as not to dominate the immediate vicinity, and will not interfere with the use and development of neighboring property.** The build out at the Property is on the interior only. The buildings on the Property already exist and are currently vacant. A majority of the ZBA felt that parking will be adequately addressed through use of valet parking and the condition that a plan relative to parking is required to be filed with the City. The surrounding area is fully built out. This standard has been met.
- (E) **The proposed use and development will not cause undue traffic congestion nor draw significant amounts of traffic through residential streets.** The banquet hall use will operate primarily on weekend nights, and the amount of traffic otherwise visiting the Property on a typical day is not excessive. No undue traffic congestion is anticipated and the uses are on a major commercial thoroughfare. There is existing parking on-site and overflow parking will be handled through use of valets.
- (F) **The proposed use and development will be served adequately by essential public facilities and services such as streets, public utilities, drainage structures, police and fire protection, refuse disposal, parks, libraries and schools, or the applicant will provide adequately for the services.** The public facilities and services necessary to serve the Property are already in place.
- (G) **The proposed use and development will be served by parking areas that are of adequate size, properly located and suitably screened from adjoining residential uses.** There is some existing parking on site and additional spaces adjacent to the Property on Cermak and Gunderson. Overflow parking will be handled through valets. Approval is conditioned on a parking plan being filed with the City. With that condition, a majority of the ZBA feels that this standard has been met.
- (H) **The proposed use and development will not result in the destruction, loss or damage of natural, scenic or historic features of significant importance.** The proposed use will retain and reuse the existing vacant buildings on the site. The exterior of the building will not be altered. This standard has been met.
- (I) **The proposed use and development will comply with the regulations and conditions specified in the Zoning Code for the use, and with the stipulations and conditions made a part of the authorization granted by Council.** The ZBA finds this standard to have been met.

The ZBA makes the following Findings as to the proposed parking variation:

- (A) **Because of the particular physical surroundings, shape or topographical conditions of the specific property involved, a particular hardship to the owner would result, as distinguished from a mere inconvenience, if the strict letter of the Zoning Code were carried out.** The members of the ZBA felt that this standard has been met. The site layout has long existed with only the sixteen (16) on-site spaces. The buildings on the Property have existed since the 1930's, and are being retained, leaving limited space for parking on site. On-site parking is not being decreased.
- (B) **The conditions upon which an application for a variation is based are unique to the property for which the variance is sought and are not applicable, generally, to other property within the same zoning classification.** The existing building, size of the building, and the site layout, are all unique.
- (C) **The purpose of the variations is not based primarily upon a desire to increase financial gain.** On-site parking is limited, and the parking variation is necessary in order to make productive use of the Property.
- (D) **The alleged difficulty or hardship is caused by the Zoning Code, and has not been created by any persons presently having an interest in the Property.** The building and site layout are long-existing. The Petitioner only recently purchased the Property. This standard has been met.
- (E) **The granting of the variations will not be detrimental to the public welfare or injurious to other property or improvements in the neighborhood in which the property is located.** It is anticipated that the rehabilitation of the Property, which has been vacant for ten (10) years, will improve property values in the neighborhood. The long-existing buildings on the Property are being rehabilitated. While on-site parking is limited, there is parking adjacent to the Property on Cermak and Gunderson, and any overflow parking will be addressed through use of valets. Approval is conditioned on the filing by the Petitioner of a proposed parking plan with the City. With that condition, this standard has been met.
- (F) **The granting of the variation will not alter the essential character of the neighborhood.** While on-site parking is limited, there is parking adjacent to the Property on Cermak and Gunderson, and any overflow parking will be addressed through use of valets. Approval is conditioned on the filing by the Petitioner of a proposed parking plan with the City. With that condition, this standard has been met.
- (G) **The proposed variation will not impair an adequate supply of light and air to adjacent property, substantially increase the congestion of the public streets, increase the danger of fire, impair natural drainage, create drainage problems on adjacent properties, endanger the public safety or substantially diminish or impair property values within the neighborhood.** The ZBA members find this standard to have been met.

RECOMMENDATIONS: Based upon the foregoing Findings, the ZBA, by a vote of five (5) in favor and one (1) opposed, recommends to the Mayor and City Council that the conditional use for a banquet hall use, and variation to require no more than the existing sixteen (16) spaces on site, as requested by Petitioner Jorge Jiminez for the Property at 6505-6511 W. Officer Recognition

Sir,

I am requesting to be allowed to present awards to several officers at the Tuesday, December 26th, 2017 council meeting.

On Saturday morning, December 16, 2017, Berwyn Police Officers responded to a call at 16th Street and Cuyler Avenue of a man with a gun. As the officers were entering the area, they heard what they believed to be gun shots. A description of the offender and the direction that he fled was provided to the officers. Officers subsequently located the suspect's vehicle which was travelling at a high rate of speed. Responding officers pursued the vehicle and were able to stop the vehicle in Oak Park. Prior to stopping the vehicle, the front passenger exited the vehicle and fled on foot. After a short foot pursuit the offender was located and detained.

Officer conducted a show-up at which time witnesses positively identified the passenger as the shooter. Officers and Investigators working tirelessly with members of the Assistant State's Attorney's Office conducting interviews with witnesses and offenders, preparing search warrants, recovering evidence and securing the proper criminal charges.

As a result of the investigation, the driver of the offending vehicle was criminally charged with numerous felony traffic violations and the passenger, who was identified as a leader of a gang out of Cicero, was criminally charged with 1 count of Habitual Armed Criminal, 2 counts of Attempted Murder and 2 counts of Aggravated Discharge of a Firearm.

It is working together, as the officers did in this case that promotes unison, provides better outcomes for the City of Berwyn, the Police and the Residents of the City and subsequently makes the neighborhood and streets of our community a much safer place.

Outstanding Job by all of the Officers involved!!

Best Regards,

Michael D. Cimaglia

RE: Request to Purchase a 2018 Ford E-450 Terra Transit ESDA bus

The purpose of this communication is to seek permission to proceed with the purchase of a new 2018 Ford E-450 Terra Transit ESDA bus to replace the 1996 Ford E-350 ESDA bus. The price of the bus is \$88,138.00. Additional costs for the vehicle purchase are \$1685 from Widaman Sign Company. Members of the ESDA unit have offered to transfer radios and emergency lighting at no cost to the City of Berwyn. I am seeking approval to enter into a purchase agreement with Southern Bus & Mobility. The 2017 Budget included \$70,000 for this expense, from which the deposit will be paid. The balance will be paid from the 2018 budget.

Re: **Security camera systems at the Lavergne, Oak Park and Harlem Metra Stations**

The WSMTD (West Suburban Mass Transit District) has awarded the City of Berwyn a grant that will cover 2/3 the cost of the installation of security camera systems at the Lavergne, Oak Park and Harlem Avenue train stations (total project - \$48,284.25; Berwyn's share - \$16,094.75 (within the 2018 IT budget); WSMTD Grant - \$32,189.50). The security system will consist of high resolution cameras that provide remote view and management with any device (iPhone, laptop, iPad). Monitoring of the system would go through the Berwyn Police Department. City staff ran an ad in the Lawndale for sealed bids for the surveillance cameras. Five bids were received (see attached). After reviewing the bids, City staff recommends entering into an agreement with Griffon Systems in the amount of \$28,800.

In addition to the installation of the security cameras, City staff has received a quote from Comcast to bring their service to the train stations. The initial upfront cost of adding the service is \$19,484.25 with monthly fees of \$270 for maintenance.

The installation is expected to be complete by the end of February 2018.

Recommendation #1: Award the contract for surveillance cameras at Berwyn's Metra stations to Griffon Systems in the amount of \$28,800.00.

Recommendation #2: Contract Comcast to install their service to the Metra stations in the amount of \$19,484.25 and maintain at an additional monthly cost of \$270.
