**Re: TIF application – Off the Traxx, 3144 S Oak Park Ave.**

Dear Mayor and City Council,

The applicant is requesting TIF funds for façade improvements at his new commercial space. The TIF scope of work includes a complete interior build-out consisting of plumbing, electrical, carpentry, flooring, ceiling and façade renovation. The applicants submitted a Tier II TIF application. To this extent, the applicants are requesting TIF funds for redevelopment work at this location in order to fill in the needed gap. Total TIF eligible project costs are expected to be \$81,495.37 plus city permits.

The application meets the procedural requirements of the Berwyn TIF application which was reviewed by Berwyn Development Corporation (BDC) staff and then processed for consideration. A 5-year revenue forecast shows that the business would produce \$81,660 in total tax revenue.

The BDC's Board of Directors and the Ogden/Depot TIF committee have both agreed to recommend approval of the below specified TIF monies regarding Off the Traxx's TIF eligible project costs.

Based on this information, the City Council is being asked to approve TIF monies to pay only the eligible costs associated with this project of 50% up to a maximum of \$40,000. As part of our process, BDC staff will validate work performed and eligibility prior to any payments. Furthermore, the BDC will ensure the applicant will not receive any TIF monies prior to obtaining proper City permits.

With the consent of City Council, Off the Traxx can commence work on their project and contribute to the revitalization efforts taking place in the Depot District.

Respectfully submitted for you consideration,

Mayor Robert J. Lovero and  
Members of the Berwyn City Council  
6700 West 26<sup>th</sup> Street  
Berwyn, IL 60402

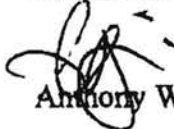

Dear Mayor and City Council:

On March 8, 2012, the BDC Commercial Loan Committee provided preliminary approval of the Jack's Rental Inc loan application which would be used to: 1) payoff an existing 2<sup>nd</sup> mortgage and 2) working capital for the business. The loan request is for \$255,000. Jack's is a long standing business on 26<sup>th</sup> Street within Berwyn providing retail sales, repair, and equipment rental services to the community. The loan is collateralized by a 2<sup>nd</sup> position on the real estate and a first position on equipment and inventory which is located at 6642 West 26<sup>th</sup> Street. With the existing first mortgage and newly requested funds, the loan to value is a very healthy 64%.

After a review of the company's financials and application packet, the committee recommended approval of the application. The recommended loan amount is not to exceed \$255,000.00 amortized over a 15-year period with a floating interest rate of BDC prime plus 2 with a 12 month introductory interest only rate set at 3%.

The BDC Board concurred with the loan committee recommendation; therefore, seeking final consideration by the Berwyn City Council. If approved, then special legal counsel will draft the needed documents to close the loan at which time the BDC will service the loan.

Respectfully submitted for your consideration,

  
Anthony W. Griffin

Re: Revisions to Visitor Parking Passes

Per City ordinance, each household is issued two visitor parking passes, at no cost, with the option of purchasing temporary parking pass booklets at \$5.00 for 15 passes. City staff has concerns that the current usage of visitor parking is not as originally intended and is proposing the following revisions:

1. Each household (outside of a 24/7 parking restricted area) will be issued one visitor parking pass in hangtag form.
2. Each household located in a superzone parking area or area signed as resident parking only 24 hours a day, 7 days a week will be issued two visitor parking passes in hangtag form, design to be different.
3. Households will be able to purchase the temporary parking pass booklets at \$5.00 for 15 passes (no change).

Recommendation

Staff has developed the 3 recommendations above and the attached ordinance for Council approval.

Sincerely,

Nicole Campbell, Traffic Engineer

**NARRATIVES**

**PRIMARY NARRATIVE**

Ismael Velazquez, is requesting a handicapped parking space in front of his residence at 1422 S. Wisconsin Ave. Mr. Velazquez suffers from and Mr. Velazquez utilizes and sometimes here is a one-car garage on the premises however Mr. Velazquez relates that the garage is too small for him to maneuver in and he prefers to use the front entrance of the residence. Mr. Velazquez does not drive; his caregiver, Maria Guadalupe Sanchez, resides across the street from him, and uses his car to transport him.

There is a yellow curb/lire hydrant which is partially in front of the residence.

This officer feels that this application should be considered for approval for Handicapped Parking Zone signs, if it meets the requirements of the Traffic Engineer/Public Works.

Re: Community Health Assets and Needs Assessment  
Canvassing and Solicitation Application

Dear Mr. Pavlik

On behalf of the Community Health Assets and Needs Assessment project, we write to solicit a Canvassing and Solicitation permit from the City of Berwyn. As we have shared with you and Mayor Robert J. Lovero, representatives from the organizations listed above are assessing and documenting the health conditions, needs, and resources in Berwyn, Cicero, Garfield Ridge, and Stickney.

The Community Health Assets and Needs Assessment (CHANA) is a community-based, participatory, inductive, and mixed methods project. Among the components of the assessment are building of community profiles, conducting individual and group interviews, and gathering data about the community through community inventories, and a randomized residential survey.

We are soliciting a canvassing and soliciting permit to conduct two components of the project, the community inventories, and the residential survey. We will conduct the community inventories beginning in May through June 2012. We anticipate implementing the residential survey from July through September 2012. Below we describe the components and procedures involved.

#### Community Inventories

The research partners have designed the community inventory as four modules: city block, medical services, unprepared foods such as grocery stores, and prepared foods such as restaurants. The modules capture information based on observations and interactions with specified personnel. In the appendix to this letter, please find copies of the four modules of the community inventory.

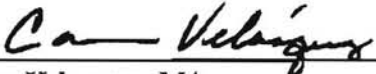

Trained and supervised community surveyors will gather information based on observations in all accessible city blocks in Berwyn. The surveyors will also gather information from interactions with personnel at medical services and food source venues. With authorization from management, surveyors will also observe and record information at unprepared and prepared food venues.

Residential Survey

The residential survey involves a random selection of residences, solicitation of cooperation from occupants at the chosen residences, and completion of a questionnaire. We will use a random selection process to choose 400 residences in Berwyn. The research partners will also select and design the questions included in the survey. Attached please find a draft of the residential survey.

Trained and supervised communities surveyors receive one of the selected residential addresses, will visit the residence and solicit cooperation from the occupants, and collect information on the questionnaire. Participation of residents in the 30 minutes survey is voluntary. We will offer respondents a ten dollars gift certificate to thank them for participating in the survey.

We understand that since the institutions submitting this application are a Charitable Organization and a Non-for-Profit intuition, the City of Berwyn will waive the fee for the application and for the persons that will gather information in the City on behalf of the CHANA project. Alivio Medical Center is register with the State of Illinois as a Charitable Organization.

## DESCRIPTION OF THE PROJECT

The Community Health Assets and Needs Assessment (CHANA) aims to assess the health conditions, needs, and resources in the City of Berwyn, Town of Cicero, the Chicago community Garfield Ridge and the Village of Stickney. Although the four areas have dramatically changed its demographic composition over the last 20 years, the health conditions, needs, and resources remain largely understudied. The scarcity of information hampers understanding of the health conditions and the development of adequate health interventions.

The CHANA project is a community-based, multi-institutional collaboration and employs a grassroots and inductive approach. Representatives from collaborating institutions make up the Community Advisory Council (CAC), the body that governs the development and implementation of the health assessment. The project employs a grassroots and inductive approaches to ensure that its development remains grounded in the community areas and that the approaches and measurements employed reflect specific community information needs.

The project has six components involving qualitative and quantitative approaches. (1) Reviews of the literature and health information; (2) Focused ethnographic studies; (3) Individual interviews with 48 individual stakeholders; and, (4) 48 groups interviews with community residents. The study also includes: (5) A representative residential survey with 1600 residents; and, (6) community inventories that capture the physical and social shape of the areas, including medical services and prepared as well as unprepared food sources.

The assessment will provide a comprehensive view of the health conditions, necessities, and resources in the four areas. The CHANA assessment will fill current health information gap about the areas, identify health priorities, and inform the development of health interventions. We encourage participation of community residents and organizations. The CAC meets the last Friday of every month to share the information, to plan subsequent segments, and to identify the necessary resources needed to achieve the ensuing goals of the health assessment.
