

COOK COUNTY PARTNERS WITH BERWYN TO PROVIDE ARPA FUNDS TO SUPPLEMENT

&

EXPAND

Residential Flood Mitigation Grant Reimbursement Program

This program is open to properties susceptible to gravity sewer line backup. All residential properties are eligible. **The residential property does NOT need to be owner-occupied to be eligible for the program.** The program's intent is to offset some of the costs to modify a property's plumbing system to prevent backflow when City sewers are at capacity. This program assists property owners who want to protect their property from flooding during a heavy rain event.

Waiting List Now Open !

Eligible property owners may qualify for:

Improvement Type	Current Program Cost Share and Max Reimbursement	Proposed Program Cost Share and Max Reimbursement
Overhead Sewer or Modified Overhead Sewer	<p>Up to</p> <p>-50%</p> <p>\$3,500.00 maximum</p> <p>Applicant is responsible for permit and inspection fees.</p>	Up to \$6,000 of grant funds plus 50% up to \$3,500 of the remaining cost.
Backflow Prevention Valve with Bypass Pump		Up to \$4,000 of grant funds plus 50% up to \$3,500 of the remaining cost.
Backflow Prevention Valve		Up to \$2,000 of grant funds plus 50% up to \$3,500 of the remaining cost.

The program does not allow for funding for previously completed projects.
