From: Robert Schiller, Public Works Director

Re: Request for Qualifications (RFQ) for Phase I Engineering Services 26<sup>th</sup> Street

The City of Berwyn will be dismissing all proposals submitted that were for this Request for Qualifications (RFQ) on June 30<sup>th</sup>, 2022 and will be posting a revised RFQ this week. The City feels that the RFQ as posted contained ambiguous instructions in the submittal package that may have been in conflict with City procedures in requesting a statement of qualifications. Internal delays did not allow for an addendum to be issued.

The City wishes for interested parties to submit a Statement of Qualifications (SOQ) based on the revised RFQ. We thank proposers that have submitted to this request and would like to provide the opportunity to amend the proposal or submit a new proposal based on the updated RFQ.

Respectfully,

Robert Schiller  
Director of Public Works
